

The Center for Instructional Excellence presents a  
**Micro-Teaching Workshop**

## Incorporating Visual Learning in the Classroom

With

**Janice Tazbir RN, MS, CCRN, CS**  
**Associate Professor of Nursing**

### Have you ever had students that:

- ⇒ have difficulty with oral directions, especially those with more than two steps.
- ⇒ often look to see what everyone else is doing.
- ⇒ appear to "zone out" during lengthy oral presentations.

### Here's why:

- ⇒ 65% of the population are visual learners.
- ⇒ Generation Y students are motivated by technology.

### What can you expect from this workshop?

- ⇒ An overview and presentation by one of Purdue Calumet's "Outstanding Teacher of the Year."
- ⇒ Quick, easy visual techniques/technology you can incorporate into your classroom in minutes.
- ⇒ A better understanding of your students' learning styles.
- ⇒ A tasty complimentary lunch.

**Wednesday, October 8**

**12:30-2:00 PM**

**154 CLO**

**SPACE IS LIMITED! Pre-register by Monday, October 6**
