Faculty Club Luncheon

What's Wrong with Flashlight?

with

Lee Artz, Director, Center for Instructional Excellence
Jeff Schieb, Co-coordinator, Flashlight Implementation Committee

A report on the results, problems, changes, and possibilities for on-line student course evaluations. An open discussion among faculty on evaluation tools, procedures, and uses.

All faculty are invited to participate in this important conversation on the evaluation of teaching: Why do it? Who needs it? How can it be done? What's wrong with Flashlight? What will the next version look like and how will it work?
