

About Your Awards

The award amounts listed on Award Notifications are only estimates! Final awards will be based on your enrollment as of the end of the 80% refund period each semester. Your awards are subject to change due to information or circumstances that were either unknown or misreported at the time your awards were made.

The financial aid disbursement process is run on a nightly basis for posting your awards to the Student Information System. Once the disbursement date for the semester is reached, your financial aid will appear on your account. All financial aid is scheduled to be disbursed in two equal disbursements, once in the Fall Semester and again in the Spring semester. Disbursement for the summer session would occur after the end of the 100% refund period for the 8 week summer session. Refer to the Student Accounts Office for additional information regarding disbursements, refunds, etc.
